5 LOUNGE SPACE

At the lounge you can sit, read a magazine, take a photo. However, mind the step between the floor and the raised platform.

PAY ATTENTION TO THE OBSTACLES

1 DARKENED ROOM

For a better adaptation to the visibility conditions, we advise you to close your eyes before entering. Once inside the room, wait a few seconds before opening your eyes again. Avoid looking directly at the light sources and blink for 30 seconds, making your eyes move around the room without fixing any specific point.
